

## RETAINING WALL PERMITS

**Retaining walls more than 4' tall**, measured from the bottom of the footing to the top of the wall **require a permit**, must be engineered and be stamped by a registered engineer.

The following shall be submitted for a retaining wall plan review:

- One (1) Building Permit Application with all necessary information completed.
- Two (2) site plans showing the proposed location.
- Two (2) sets of engineered construction plans with dimensions and materials.
- The contractor must be registered with the city.
- The permit fee is based on the estimated value and a plan review fee is assessed at 65% of the permit fee.
- At the present time, the City of Corinth is under the 2009 International Building Code (IBC).
