City of Corinth Releases a New Mobile App for Android and IOS

CORINTH, TX – The City of Corinth is on a mission to actively engage its citizens and is continually seeking innovative ways to stay connected to the community. The newly redesigned website released in October of 2014 includes interactive modules such as Notify Me, Report a Concern, the News Room, Online Bill Pay, and Agenda Center that provide easy access and up-to-date information.

All of these modules are now accessible anytime, anywhere, with any device through our new City of Corinth mobile app! The responsive design allows citizens to easily reach city services with just one touch.

“We recognize that technology and mobility is a way of life and it is the City of Corinth’s responsibility to ensure services are accessible and convenient for our citizens,” says City Manager Rick Chaffin.

The app is compatible with IOS and Android devices and available in both the Apple and Google Play stores. Click on the icons below to download.
