

CITY OF CORINTH

Traffic Impact Analysis

Project Name: [Click or tap here to enter text.](#)

Threshold Worksheet

The City of Corinth’s Unified Development Code provides that a Traffic Study may be required with preliminary plat applications. *If the proposed development exceeds one or more of the three threshold criteria listed below, a traffic study will be required to be submitted with the preliminary plat application.* Otherwise, for projects that do not exceed any of the three criteria, a Traffic Study Threshold Worksheet must be submitted and approved by the City’s Engineer *prior to submittal* of the preliminary plat application. Please describe in detail your evaluation of each criteria listed below. Additional sheets may be attached if necessary.

Criteria #1: The development exceeds parking 100 spaces average per driveway.

Criteria #2: Any driveway or roadway in the development is projected to serve 1000 or more vehicles per day.*

Criteria #3: Any driveway in the development is projected to serve 100 ingress vehicles or more in the design hour.*

* Unless approved otherwise, trip generation rates should be based on the most recent edition of the Institute of Transportation Engineers (ITE) *Trip Generation Manual*.

I hereby certify that this project does not exceed any of the three threshold criteria shown above and therefore the development would not warrant a Traffic Study in accordance with Section 3.05.04.(D) Traffic Impact Analysis of the Unified Development Code of the City of Corinth.
