KEY TRENDS

Description:

Water charges are billed on a monthly basis in two billing cycles. Citizens are billed on the 1st and 15th of every month based on their meter rate as well as the volume of water used. This revenue is highly influenced by weather patterns. Hot, dry summer results in high water sales.

Analysis

The FY 2015-16 budget incorporates the second year of the adopted three year rate structure for water and wastewater services as adopted by ordinance in May 2014.

Description:

Wastewater charges are determined by wastewater rates & volume of wastewater treated. Residential wastewater treatment charges are determined by a winter average process that takes the lowest three months of water consumption to determine a baseline wastewater treatment demand.
